I've been going to Refine for a few years now after trying other places for filler. This place is BEYOND wonderful. No one does my filler & Botox better than Renee. I will go no where else since I had found her. And the Botox is well priced ... [More](#)

Jan was amazing to work with!! SO affordable and my results were exactly (if not better!) as she said they would be. I had a spider vein on my nose, and it's GONE! Thank you Jan! I highly recommend this place!

My first experience with laser hair removal was very good. Deb explained the process and answered all questions. I'm pleased with visit one results and will be going back in a few weeks.

Refine is the best! I love these ladies. The service is excellent. Pricing is fair. They are very conscientious to do the best thing for the client. I have had great success with laser hair removal and other skin treatments. My friends and family are also not clients.

I had a great experience! This place was such a relief after a few bad experiences elsewhere. The staff is very friendly and isn't pushy. Their service made me feel very confident about my areas of concern. I will continue going here. (I got fillers injected under my eyes to help with the appearance of dark circles that makeup just wasn't covering up anymore.)

I was referred to Jan by my mother, who could not say enough amazing things about Refine and her experience with Jan. After my first visit I understood why my mom was so happy with her experience. Jan is knowledgeable, she teaches her clients on care and treatment and is straight forward and efficient. I am a very satisfied client and will continue to seek treatment at Refine!

LOVE LOVE LOVE my visits to Refine. Now that I'm in my 50s my facial skin has become saggy and full of what I would call "creases" as they are much deeper than wrinkles. After visiting Refine and receiving filler injections of Belotaro & Radiesse by Renee's expert hand, the difference is remarkable. It's hard to believe that after only a few short minutes and very minimal pain, I leave the Refine FEELING and LOOKING years younger! I truly feel like I have FOUND THE FOUNTAIN OF YOUTH! Deb, Renee and Jan are all super easy to work with and are the nicest bunch of gals I know -- and thanks to them, I feel TRANSFORMED!!

Having been a long time waxer - I had always thought laser was too expensive and would never give me better results than I was getting with waxing. WRONG! Laser is my new best friend and I want to laser everything! :) In the greater scheme of what I have paid for waxing vs laser - laser has been a way better deal with exceptionally better results! Pool parties - no problem - I am ready to go - thanks to Refine. Before deciding to try laser I did a ton of research and chose Refine based on the type of laser they use, which is by far the best rated laser out there for hair removal. Also, based on their pricing and customer service, which are incomparable to any other place I called or visited. If you are even considering laser hair removal, give a call, ask a question, they will take the time to make you feel comfortable and in the end you will know Refine Laser is the right choice!

I have been to 4 other places for laser hair removal and this one is the BEST, for sure! Not only did this company have the smallest laser head (to get into small areas like nose/ears), she did an exacting precise job. My beard line is ... [More](#)
